## Hon. Mackenzie King and National Unity

Speaking in the house of commons at Ottawa, a line of thought, the contributions the Prime Minister has made from time to time in cementing together the various diverse economic parts of Canada was paid by W. G. Raymond (Montreal) who, in urging the need of conciliation, said that unity is to be carried out, if these rifts which now exist, in Confederation are to be closed, if there are any hope of pulling together the provinces and having them united in a happy and progressive country. I certainly believe that the Prime Minister is the man who in the spirit he has displayed throughout his life is most likely to be effective in bringing about that great national unity.

## Many Placed on Farms

Since March 15 of this year the Provincial Land Bureau has been placing on farms vacant more than 1,700 houses. In the week of April 11, some 750 were placed and in the following week 1,225. The latter was a record for the service for spring operations, more vacancies created in that period than for any similar period in the history of the service.

## Police Confiscate Red Flag at Drumheller

With a large red flag at the head, the Drumheller branch of the Communist Party of Canada started its May Day parade from the Mines' road on Friday, but when opposite the Bank of Montreal was met by Inspector Nicholson, of the Provincial Police, who confiscated the flag without any disorder taking place.

Small red flags, carried by children belonging to the Children's Communist League, were not confiscated by the police and the youthful members of the parade sang the "Red Flag" as they marched along.

## Visiting New Settlers.

Now that a fair number of British settlers have reached Alberta under the Empire Settlement scheme and given a chance to settle under W. R. Mead, superintendent of the Federal Colonies, and C. H. Russell are now on a tour throughout the province. It is their intention to get a first-hand view of the country and satisfy themselves that they have been suitably placed and are comfortable and happy.

## Time Extended For Removal of Settlers

Extension of time until the end of June has been granted by the Government in view of the fact that the delay for which the settlers were to be made, viz. the placing of them around the settlement grounds and generally benefiting the grounds. While Mr. Mead is to be heard on the subject, Mr. Baker has suggested that they carry on with the delay from that section of the province.

## Hungarian Families For Manville District

One hundred Hungarian families are to be sent to the Manville district this week to take up land under the newly-organized British Overseas Settlement Corporation scheme. They will occupy lands purchased by the corporation from the Western Canada Land Co., and will be settled near Manville.

The colony will be carried on very largely on a community basis. The corporation will have houses and also have erected for them, although the new settlers will have to erect their own houses. They will then be provided with a team of horses, three or four, and farming implements. The intention being that the houses and implements will be used between them as much as possible, probably on a co-operative basis. It is understood that they will be the only European settlers to be brought out by this company. The rest will be British farmers, mostly with sufficient capital and experience to carry on unaided by the company.

## Editors to Visit Alberta.

A tour of Western Canada has been made by the Greater Alberta Field, composed of Eastern Canadian and American editors, which will hold its first meeting in Winnipeg on June 10. The tour will spend some time in Alberta, visiting Calgary, Edmonton and other points. Later in the year a party of American editors expect to make a tour to the West.

## Many Settlers Arriving.

Considerable immigration has taken place into Alberta within the past few months, the number of settlers arriving daily from British and European countries. Many of the new settlers are being taken care of by the settlement authorities at the office of the Publicity Commissioner, Mr. Mead, who is now in the province. During the week recently over 20 families have been settled in the Edmonton field office.

## A Short Story.

When short stories can be found that show such a happy home as that of the settlers, it is a good sign. Here is one which appeared recently:—

## Lambton Municipal District Council

The above council met at Daln on Saturday, May 2, at 11 a.m. when being present.

The secretary read a letter from the Attorney General's Department, stating that in their opinion the poundage was within the limits in returning the horses belonging to R. B. Keston after they had been removed from the pound, and that he was entitled to charge and receive the regular pound fees.

Councillor Hild moved that the secretary be authorized to write to Mr. Bue, the pound keeper, the sum of \$10.00, this being the amount of the fees in dispute, and which had been paid under protest by Mr. Keston.

Mr. Keston was present and gave his view of the case in connection with the matter, and he was represented to the municipality, payment of which had been refused by the council.

After hearing Dr. Keston, the council decided not to alter their position.

Dr. Keston also spoke on the matter, and he was directed to have his claim for the poundage paid out of the municipality.

## Government Highway.

Mr. McQueen, government minister, was present and advised that the location of the new highway between Hanna and Delia would be announced in the near future, and that a location party was being sent out to inspect the route. The location party was being sent out to inspect the route, and the location party was being sent out to inspect the route.

The secretary stated that he had written to the Highway Commission, asking drawing his attention to the fact that the location party was being sent out to inspect the route, and the location party was being sent out to inspect the route.
